

**POWER Idea Contest
for Jerusalem Community**

DIAGNOSIS

**(Don't Ignore Any Get-away
Neither Other Scape-system Is
Solution)**

JERUSALEM (ISRAEL )

AUTHOR: ING. ABATE SANTO

POWER Idea Contest for Jerusalem Community

Our idea born from the desire to develop **CIVIC ENGAGEMENT**, proposing an idea that increases the involvement of citizens in local decision-making processes, as well as strengthening cooperation among local stakeholders on sustainability issues, introducing digital tools and technologies that involve in a collaborative way the citizens.

JERUSALEM (ISRAEL )

POWER Idea Contest for Jerusalem Community

- Our idea born from the belief that to optimize any system it is necessary to have a lot of data knowledge.
- Starting from a concept already applied in the **ENERGY SECTOR**, it's proposed to create a site in which the map of all the buildings of the city is loaded.

JERUSALEM (ISRAEL )

POWER Idea Contest for Jerusalem Community

- The first motivation that will make the citizens definitely participate in the project will be to have a reduced the tariff on water consumption.
- The really Motivation is the IDEA:

**SUSTAINABLE GROWTH IS A
MORAL DUTY**

WE HAVE TOWARDS OUR CHILDREN

JERUSALEM (ISRAEL )

POWER Idea Contest for Jerusalem Community

All the population through a site registration and the installation of a smart-metering meter in their building can load the data of their building in order to make it participate in the fight against the waste of water consumption.

JERUSALEM (ISRAEL )

POWER Idea Contest for Jerusalem Community

- The mapping will be very important because through it you can discover all the criticalities of the water system and apply new solutions to eliminate them.
- We are convinced that through collective involvement and through careful analysis we could improve and greatly reduce water consumption.

JERUSALEM (ISRAEL )

AUTHOR: ING. ABATE SANTO

POWER Idea Contest for Jerusalem Community

Given the variety of the population of Jerusalem we will create a portal that will unite all the inhabitants regardless of religion or social background, all united to improve the city. The site will be realized in: Hebrew, Arabic, English and Italian
